## What you need to know:

<b>Parking</b>	Construction parking is to be within the stabilization area located on the south side of the campus. Vehicle per trade is allowed within the construction fencing for the footprint of Building #4.
<b>Pick up/Drop off</b>	Student drop off and pick up and should remain intact though the construction project and will not be affected. Material off loading/deliveries will be completed within or around construction areas.
<b>Traffic</b>	Possible traffic disruption on Central Park Blvd at construction site entrance during delivery times, which will occur during the day. There should be no disruption to normal traffic patterns in other areas around the school.
<b>Bike and pedestrian access</b>	No change
<b>Deliveries</b>	Deliveries will frequent as the project progresses. To include removal/replacement of dumpsters and delivery of a variety of construction materials to the site throughout the duration of the project.
<b>Utility disruption</b>	Utilities to the other building on campus will remain intact during construction operations
<b>Noise</b>	Outside: Some delivery vehicles, regular loading/unloading of material, general equipment noise. Construction has isolated itself from the main campus with construction fencing.
<b>Smells</b>	Slight odor from operating diesel equipment.
<b>Evacuation routes</b>	No Change
<b>Daily routine/internal traffic patterns (lunch, recess, etc.)</b>	No Change
